Republican Senators Will Admit New Mexico, Oklahoma and Utah.

Washington, Jan. 24 .- The republic majority vote to take favo-able action upon the admission of the landories of Oklahoma, I tan and New Mexico, but left Arizona out in the cold. This result was not attained until after a prolonged discussion. The caucus was called in pursuance to a request signed by Senator Dubois and several others of the northwest. In senators, and was devoted entirely to a discussion of the proposition to admit these territories to statehood. A great deal of opposition was manifested on the part of some of the eastern senators, who pointed to what they called the manifest evidence of the inability of these territories to take up the cares and burdens of statehood. The house has already passed the bills for the admission of New Mexico and Arizona, but no action has been taken on Utah. majority vote to take favorable action

Of the three territories it is claimed that only one, that of Uklahoma, is probably republican, but the republiwere grateful to him for services which they and I believe no other man bould have rendered as ne did, and when he did, they loved him and trusted him for that high honor, that sublime courage, that fidelity which signalized his private and his public life.

"On this occasion, Mr. President, I may not speak at length of his public services; but I may be permitted on behalf of Mississippi and of all her people to thank he senate in advance for the action which I know is soon to be taken in respect to his memory."

The Senators sy they will insist upon their admission regardless of politics, for the resson that they will never advance or become improved until they are given sisterhood, and that their improvement will enhance the conditions of other new states in the west.
